

# Test Your Knowledge!

Correctly label the above strip.

## Atrial / Bi-Vent Paced

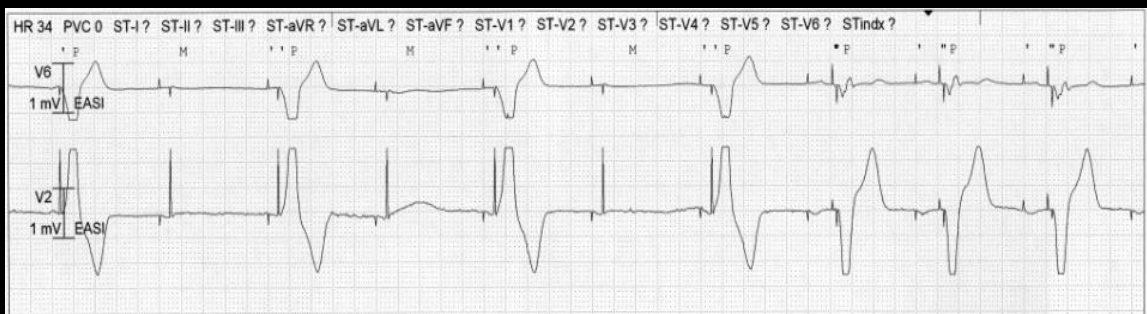

The strip shows pacing with one pacing spike in front of the P wave and two in front of the QRS. The " above the pacing spike indicates Bi-Vent Pacing, which is pacing both the right and left ventricle.

Correctly label the above strip.

## Atrial Paced

The strip shows one pacing spike before each P wave but no pacing spikes before the QRS.

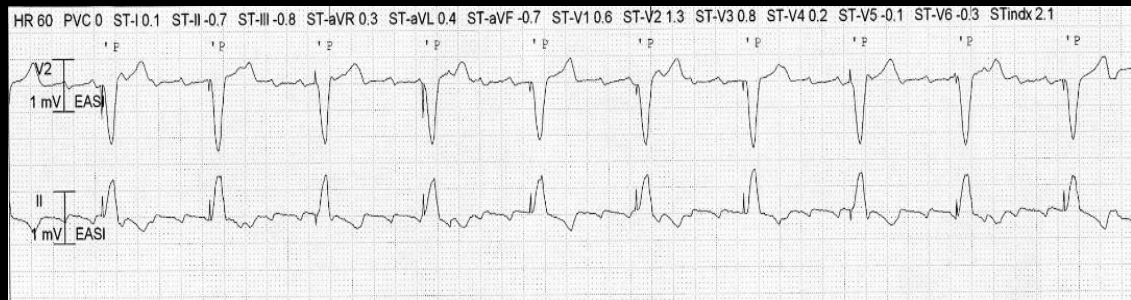

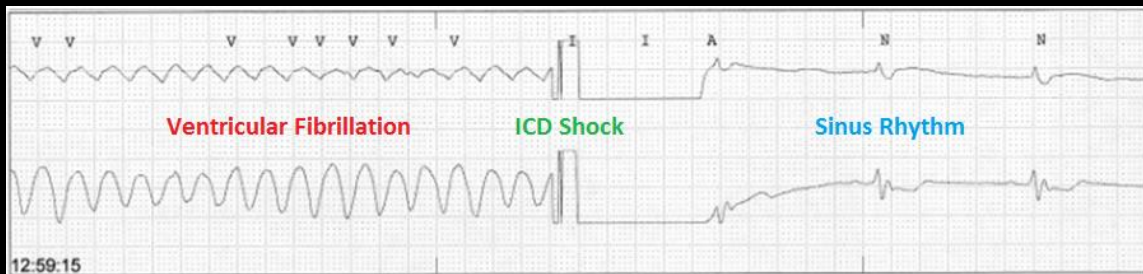

Correctly label the above strip.

## Ventricular Fibrillation with ICD Shock

The first half of the strip shows Ventricular Fibrillation. Then there is an ICD Shock followed by a return to Sinus Rhythm.

Correctly label the above strip.

## Ventricular Pacing with underlying Atrial Flutter

The rhythm is regular with a pacing spike in front of each wide QRS. In between each paced beat you can see flutter waves.
